## Wee Care Center Ready March 1 Furnishings Committee Named

Belle Glade's modern Wee Care Center, designed to provide adequate day care and nursery facilities for some 100 preschool Negro children, is steadily coming into realization.

This bi-racial project is one that the community as a whole has entered into with much eagerness and effort. The need for "Wee Care" is imperative as many children are left at home unattended while their parents are working.

The formation of a Furnishings and Equipment Committee is one of the most recent developments of Wee Care, Inc. This committee has been organized under the direction of Miss Sara Lee Creech, Vice-President and Chairman of the Building Committee. Mrs. E. M. Lively has been elected Committee Chairman and Mrs. John A. Dulaney named Publicity Chairman.

Members of the committee, after much consideration and study, have made a detailed itemized list of furniture and other large equipment that will be needed for the new building. The latter will include a nursery, toddlers room, kindergarten, kitchen, clinic room, and waiting room, employees' lounge and living quarters for a director.

Items of linens, blankets, to-

wels, face cloths, shirts, bibs, diapers, dishes, pots, pans, toys, etc., have also been listed.

The above are being made known to the interested groups and individuals of this area that they may contribute various articles. Both new and used items will be acceptable in most cases.

**Liquor Hours Change Considered By City**

Pastor W. R. Bolland, representing the Ministerial Association and W. C. Taylor, representing a segment of negro residents of Belle Glade, made presentations to the City Commission Monday night against any increase in hours for sale of alcoholic beverages in the City.

Taylor told the Commission that a large group of citizens in his area of the City have been attempting with some success, over the years to upgrade citizenship among his race, and the increase in hours for sale of liquor would be a step backwards in their program.

Immediately following this declaration, one representing the liquor establishments presented their arguments for the change.

Presently the hours are for five days per week from eight A. M. to 12 midnight, and eight to 1:00 a. m. on Saturday.

Hours asked are for six days per week from seven a. m. to 2:00 a. m.

## Non-Citizens Must Register By Jan. 31

The United States Immigration and Naturalization Service reminded all aliens in Florida today that only this week remains in which non-citizens must file their annual address reports as required by law.

Mr. Edward P. Ahrens, District Director, pointed out that address report forms are available at the nearest Immigration and Naturalization Service office and at all Post Offices for the convenience of non-citizens required to report their addresses to the Government each January and provision of the Immigration and Nationality Act of 1952.

Mr. Ahrens said the only non-citizens not required to report their addresses are persons in diplomatic status, foreign representatives of certain international organizations, and persons admitted temporarily as agricultural laborers.

Mr. Ahrens stated: "It is hoped that all persons subject to this law will go to the nearest Immigration and Naturalization Service office or Post Office and fill out an address report form before the January 31st deadline to avoid possible serious penalties."

He explained that persons found guilty of a willful violation would be subject to a possible fine, jail sentence, and deportation.

In a statement today, Rogers said: "It has been my great privilege to serve our District of Washington for 10 years, during which we have seen a growth and development pattern unlike any other section of Florida."

## Illicit Liquor Baited Tickets Bring On Trouble

Lt. Mathis of the Belle Glade Police reports a haul from raids conducted by him in connection with State Beverage Officer Wooten and the assistance of Sgt. Chisholm, patrolman McCoy and Trammell.

Four persons have been assessed bonds totalling \$3,000 for selling liquor without license and/or during closed hours.

One, James Owens had some bait tickets in his possession, which is illegal and generally frowned on by law enforcement officers, so James faces a \$1,000 bond.

Henry Benjamin, well known in liquor selling circles, is charged with three counts on selling liquor; with \$1,000 bond; Grover Mims faces two counts with \$1,000 deposited pending the Judge's opinion as to the evidence.

Thelma Robinson got arrested by selling liquor during closed hours with out a license, with a \$1,000 bond held to assure her appearance.

Some 50-odd bait tickets of liquor were seized and some brands are reportedly seen common in the hands of discriminating drinkers.

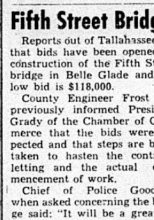

The stiff bonds are intended to be discouraging to the sellers and their coparties in violations.

The seized liquor is legal, but the sale of public opinion at the regulations, and the price is generally \$3 per half pint, it is said.

## Agriculture Complimented By Bryant

Governor Bryant is complimenting Palm Beach County's Agriculture to County Agent Mounts and Glades Agent John Causey at the Southeastern Fair on Monday.

The Governor visited each of the displays in company with President Boutwell and other Fair officials, despite the heavy rain. It was planned to bring him from the airport to the Fair by helicopter, but the inclement weather prevented this.

The Governor greatly enjoyed, especially the educational tone, and the varieties of agriculture commercially produced in the County.

## Fifth Street Bridge Bids Opened

Reports out of Tallahassee that bids have been opened on construction of the Fifth Street bridge in Belle Glade and the low bid is \$118,000.

County Engineer Frost had previously informed President Grady of the Chamber of Commerce that the bids were expected and that steps are being taken to hasten the contract.

Chief of Police Goodlett, when asked concerning the bridge said: "It will be a great relief to north-south traffic."

When the Second Street bridge was built, the traffic on Main Street was a constant problem. Now, there are jams of traffic at both main and Second, and a Fifth Street bridge will help towards relieving a troublesome traffic condition, which is yearly growing worse.

This brings the City, County, and Florida Conservation and Secondary Road operations into the picture. But as the "Mayor" says: "Let's get it behind the project and GET A BRIDGE EAST OF MAIN STREET."

## Anti-Sub Missile At So. Fla. Fair

Visitors to the South Florida State Fair at West Palm Beach will get a first-hand look at SUBROC, the Navy's newest and deadliest anti-submarine missile.

The submarine depth weapon will be part of an exhibit provided by the Naval Ordnance Laboratory Test Facility at Ft. Lauderdale, where numerous vital tests have been performed during different stages of this missile's development.

SUBROC is a submarine-launched, rocket-propelled, inertially-guided, nuclear depth bomb for long range destruction of hostile submarines. In operation, SUBROC is ejected from a standard torpedo tube. Once clear of the submarine, the rocket motor ignites while still under water and propels the missile up and out of the water.

The rocket motor separates from the depth bomb at a predetermined velocity, freeing the depth bomb to continue on towards its target. Upon re-entry into the water, the bomb sinks and detonates.

The basic idea of an underwater-launched anti-submarine missile which could be effective at long range was conceived at the Naval Ordnance Laboratory, White Oak, Maryland, a number of years ago. Subsequent studies by NOL established the feasibility of the project, and SUBROC became an established development project.

## "Life Is What We Make It"

By Luther A. Key  
Years ago, James Whitcomb Riley, was attending, as a young boy, an Indiana school, where the schoolteacher, always began the days schedule with prayer. One day, little Jimmy came with his classmates to school with an unusual amount of foolishness in his mind. So this day, rarer, he peeked through his fingers. Looking out the hallway he saw a mouse coming down the stairs. He said half to himself and half aloud:

"Here comes a mouse, it's coming down the stairs."

It's coming down to hear the old maid say her prayers."

But he said it a little too loudly and the teacher heard him. When she had finished the devotion, she turned and said, "Master James Whitcomb Riley, come here to my desk and if you don't produce another verse of poetry as quickly as you did that one, I'll rap your knuckles with this ruler." Little Jimmy stepped up and quickly replied:

"Here I stand beside Miss Blodgett,

She's going to strike me, but I'm going to dodge it."

Now there is another verse of poetry that has come out of the same era. It was written by John Oxenham and reads as follows:

"To every man there openeth a way, and ways and away, And the high soul findeth the highway,

And the low soul gropes the low, In between on the misty flats, The rest drift to and fro,

But to every man there openeth a way, a high way and a low,

Every man decideth the way his soul shall go."

What shall I do with my life? What is most important in life? That is the most important question. What shall I do with the one life I have? I live to live, or nine lives to live, but have only one, and like the little fellow who is standing at the candy counter with only one cent clutched in his hand, his

decision is a tremendous one to make. Shall he buy this piece of candy here or that stick of gum over there? It would be much easier if he had five cents or ten cents, because then he could buy one of each, but the cold fact remains he has only one cent to spend. How shall he best spend it?

So we stand before the counter of life with that one life which we have received, and we are asking ourselves, how can we best invest it, how can we make the highest and best use of it?

Many livelihoods are given for any man's life, particularly for the life of the young. There are allegiances on every hand that seek to gather in life consequently one stands at the crossroads, perplexed and confused, unwilling, feeling that his life is like a radio tuned to many stations at the same time with the static making the reception of the more confused and difficult. Man sometimes feels like a horseman on a wild horse trying to ride, wondering which way he will turn. What shall his master purpose be? What shall he do with his life? There are many questions and many answers and if we find the answer to this important question of life we shall have begun the process of eliminating one by one the perplexing questions of life because we will have made the greatest step in answering the puzzling, perplexing questions often asked of us.

**Saved By What?**  
As one studies God's word, it is immediately apparent that many factors enter into salvation. For instance, the scriptures teach that we are saved by faith alone, in the name of the Lord, Romans 10:13.

—Saved by Faith, John 1:12  
—Saved by Repentance, Acts 3:19  
—Saved by Confession, Romans 10:9, 10  
—Saved by Baptism, 1 Peter 3:21

If we would please God, we must accept all of His Word teachings.

## 2 Schools To Have 30 Classrooms Of 1,000 Capacity

School Board member Milton Carpenter advises us that the contract has been let to B. F. City. The negro unit is located Hardy Construction Co. for a total of \$900,000 for two schools. SW and the white school is located in Belle Glade with 210 days erection time.

Each school has a cafeteria, a library and an administrative building, each has parking space

for teachers and bicycle area for pupils. A play area 90 x 100 is provided at each school with a softball diamond on the grounds.

There are four primary classrooms in each; twelve elementary classrooms are provided in the negro school, with area indicated for building six elementary and four primary rooms later. Ten elementary rooms are now being built with eight postponed and four primary rooms currently being built with two for later, in the white school.

Board member Carpenter points out that his proposition to use the same plans for five schools was finally adopted by the School Board with a consequent saving of near \$50,000. Instead of the usual 5 percent fee, the architect adjusted and added for the Glades schools for a fee of 2 and one-fourth percent.

A duplicate of the white school built on the coast was contracted for at a price of \$11.52 per square foot; in the Glades the school cost \$14.57.

However, \$15,400 is necessary for a sewerage plant and piling were figured at \$55,000. Prestressed concrete floors are provided at a price of \$14.065.

### Liberace In Palm Beach Playhouse

One of the greatest showmen in show business history, Liberace, returns to Frank J. Hale's RP Playhouse in Palm Beach by popular demand, for a week's engagement, February 3rd thru February 8th.

The production, billed as "The Liberace Show," will of course feature the piano virtuosity of Mr. Showmanship himself. Featured are soprano Claire Alexander and also Miss Betty Payne, the Chandelier Girl, all backed by a fourteen piece orchestra.

Tickets are at a premium already. There are still seats available for some performances, but patrons should purchase at their earliest convenience. Liberace was a tremendous hit at Mr. Hale's playhouse three seasons ago and sold out in advance of his opening date.

Liberace is one of the biggest attractions in show business. Only he, and Paderewski before him filled New York's Madison Square Garden to the brim with

audiences and thousands were turned away from the box office due to the sellout. He has toured the world several times over, receiving the same enthusiastic reception for his artistry and showmanship everywhere, from every race, color and creed of people on this earth.

An interesting item in the school costs is that of furniture and fixtures of \$125 per sq. foot; then, there is a contingency item of \$14.065.

### Henry Flagler Museum's 4th Anniversary Sat. 1st

You are cordially invited to attend the celebration of the fourth anniversary of The Henry Morrison Flagler Museum from 12:00 noon to 9:00 p. m. on Saturday, the first of February, 1964.

Those who have visited the Museum before will note particularly the absence of the ten-story hotel building. By its removal, the Trustees have taken an important step in the planned restoration of Whitehall to its former grandeur.

You will enjoy our many exhibits, including:

- New "Post-times" exhibit: 1916-1956.
- Historical documents of the Florida East Coast Railway.
- Florida shell exhibit.
- Warren Smith Room - documents and photographs relating to Mr. Flagler.
- Doll House Room.
- Exhibit of antique silver and china.
- Seventeenth Century Fan exhibit.
- Exhibit of antique wedding and other faces.

Also of interest are a Mexican wedding gown donated by the noted designer Senorita Eleanora Mayo and many newly acquired items of furniture originally at Whitehall. Among them are a fine bust of Caesar Augustus, a green marble table and a Louis XV bronze and crescent clock, all in the Marble Hall.

There will be organ music in the Music Room throughout the celebration and refreshments will be served in the West Room.

"Moby" the performing whale at Marineland of Florida, jumps completely out of the water to touch a ball suspended 16 feet in mid-air.

### "Cracker Boy" Does Alright!

W. S. Badcock (right) gives Curtis Slades Owner-Operator of Belle Glade's Badcock's Furniture Store, some of the highlights of the current sales promotion for the store.

As co-owner of more than 50 furniture stores throughout Florida, and several more "on the board," Mr. Badcock's history as one of Florida's outstanding merchants is one of hard work, integrity, business acumen and a knowledge of furniture merchandising.

Reluctantly responsive to questions, Mr. Badcock beams when he refers to his start. "Yes, I am a Cracker, born and bred. My father sold me his store at Mulberry, on a credit, and gave his blessing. He turned after the deal was consummated and had started out of the store, and said, 'Here, son, you'll probably need some change, which I hadn't thought of, as he handed me \$100.'"

"There have been a lot of ups-and-downs, and a lot of hard work, but there's a lot of satisfaction in having fifty men as co-owners and workers, whom I have followed along successful careers."

"Yes, sir, it's a lot of fun and a lot of hard work" as he chuckles.

The headquarters of Badcock's is still at Mulberry, with warehouses stretching along the rail sidings, in a succession of "added-on" buildings.

That "better mouse-trap" has it's headquarters in Mulberry with trails leading to it for the weekly trek of returning trucks from the replenishment of the 50 stores.

It's ideas and men who work them throughout these United States that make America great; they support Madison Avenue of New York City Wall Street, State Street and the money centers of the country.

### UNCLE DAN from DOOLIE says:

Dear Mr. Editor:  
The fellows at the country store Saturday night was discussing preachers and religion. For the most part, they know about as much on them subjects as a hog knows about Sunday.

We had a fellow out here few year back named Pat Barnwell that claimed he was a authority on these matters. He was always telling everybody how to get to Heaven. He was so ignorant he spelled Jesus with a little "g" but he was a expert on how to get to Paradise and afore long they give him the nickname of "Paradise Pat". But ignorance ain't never been no drawback to conversation when the fellows convene at the country store.

Saturday night, for instance, Ed Doolittle give the opinion that preaching was a harder job in the old days than it was now. He said when he was a boy they walked 2 mile and back from his house to the church twice on Sunday and onct fer prayer meeting ever Wednesday night and the preacher had to be good. He recollect onct when the preacher told 'em if they

heard any member of his congregation snoring to come up in the pulpit and wake up the preacher.

Zeke Grubb allowed as how he'd have to vote for the preacher of today. At his church, for instance, Zeke reported a fellow could back slide and get back as good as new. In the old days claimed Zeke, when a fellow backslid he either had to change churches or wait till they got a new preacher. Furthermore, Zeke claimed his church had the biggest parking lot in the state and they were working on a plan to give trade stamps fer perfect attendance.

Personal, Mister Editor, I think the preacher of today has got the hardest job on account of we got more ways to sin and more confusion than in the old days. For instance, we got a family down the road a piece where the wife is a Methodist and a Democrat and her old man is a Baptist and a Republican. Any preacher that can keep religion on a even keel in that household is a Solomon come to judge ment.

I didn't take sides Saturday night on account of I learned a long time ago they ain't but one thing worse than being on the wrong side of a argument and that is getting caught in the middle of one. When it comes to arguing about churches and preachers, I'm like the fellow that said he belonged to the Round Church — he didn't let none of them get him cornered. How the so ever, I will have to say they ain't no finer calling in life than being a rural preacher. I recollect reading onct this statement made by William Jennings Bryan: "Doubtless God Almighty could make something better than a country preacher, but doubtless he never did." Yours truly, Uncle Dan

### Medical Scholarships For Worthy Students

The State Board of Health today set April 1 as the deadline for receiving applications for 10 medical scholarships to be awarded to worthy students.

The scholarships are worth \$1,000 a year for as much as two years. Only students who have completed college level pre-medical studies are eligible. High school students are not eligible.

Those accepted must be citizens and have been a resident of Florida for five years, be of good character and in need of financial assistance. The student must agree to practice 15 months in a Florida community meeting his services for each year's scholarship accepted.

The scholarships were set up by the Legislature to help provide doctors for communities which might not otherwise be able to attract one. The scholarships are reviewed by a committee of seven — the deans of Florida's two medical schools and five physicians designated by the president of the Florida Medical Association.

There are now 39 students studying under the program in nine schools — two in Florida and seven out of the state. For information write to the Medical Scholarship Committee, Florida State Board of Health, P. O. Box 210, Jacksonville, Florida, 32201.

### 20-Mile Bend Launching Site Improved

Filling and paving of an improved public recreation area near 20 Mile Bend in Palm Beach County will get under way February 3rd.

This was announced by Lake Loyal, Palm Beach County Commissioner, and by R. R. (Jack) Horner, Vice Chairman of the Central and Southern Florida Flood Control District.

The FCD will fill the present boat launching area, raising its elevation to a height of 19 feet (above mean sea level) and will reshape the access ramp over the levee. As soon as this work is completed (probably by Feb. 10), Palm Beach County will construct a double-size concrete boat ramp. It should be open to the public in March according to Jack Goss, County Parks Director. The new ramp will be 17 feet long, will permit launching of two boats simultaneously, and will be equipped with "dick" type catwalks. The ramp will be similar to the latest "standard" facilities the county has installed at Jupiter near the U. S. Highway 1 bridge crossing the Loxahatchee River and at Delray Beach on the Intracoastal Waterway. Many boaters have called these the best boat launching facilities in the County.

## A Vertical File Has Been Added To Public Library

In December, 1963, your Public Library added for your use a vertical file. The question has been asked, "What is a vertical file?" When librarians speak of a vertical file, they are referring to a collection of clippings, pamphlets, yearbooks, reports, magazine articles and other unbound information which has been arranged by subject and filed in alphabetical order. The purpose of the file is to preserve all local information not found in books and make available information on world affairs which is too recent to be found in magazines and books.

Our file is not complete, but we will be adding to it continuously. Already, we have material on local affairs, scientific discoveries, elections, important news developments, maps, maps, life and customs of other countries and many other topics of interest.

## -Your Library-

Two totally different ways to treat biography, and a roughish novel by Honor Tracy, worth at least a thousand laughs, are the selections for the week. Happy reading!

**The First Day of Friday, Honor Tracy.**

This library patron who returned THE FIRST DAY OF FRIDAY, after a cursory glance at the first few pages, should reconsider, and try again. Page one is a poor introduction to what becomes a marvellously funny book. Although its slash-humor seems to be at the expense of the Irish Catholics, in whose green, green land the plot falls, be warned that they fare quite well in the end. Michael Duffy, harried aristocrat, who has trouble paying rates on his battered estate, his beautiful fiancée with the mind of a field marshal, his mildly demented mother, and other members of an Angle-Irish minority all fail to achieve quite the status in the story as does Attracta Moyn Smith, Irish servant.

While the Catholics celebrate their Holy Days with what seems alarming frequency to their paritican employers, the Protestant community attends conversely low Church of England services, or Hunt Balls, where some plunge through decayed floors.

The ending is a remarkable three minute sermon by Cousin Kilrany, lay reader, and a lusty God Save the Queen. This, alone, is worth the reading.

**Dorothy and Red, Vincent Sheehan.**

A unique couple, here. For the country's leading journalist to marry the country's leading novelist (as this author claims they were) was to place a strain on credulity. Nevertheless, it happened, and they lived unhappily, together and apart, for fourteen years until their divorce in 1942.

Dorothy Thompson was known to every American with eyes to read, or ears to hear, in the decade leading into World War II. Sinclair Lewis was then past his heyday, although, today, the younger generation is more familiar with his name than with that of his enterprising wife. The author knew them intimately, and did an adequate job of connecting the correspondence that tells their story. The letters, from two compulsive writers, could tell the story, alone.

Guests playing were Mrs. Ross Agnew, Mrs. H. T. Vaughn, Mrs. Kathleen Boye, Mrs. Frank Conkin and Mrs. W. C. Owen all of Clewiston. Mrs. Agnew won high prize for guests. Mrs. Prewitt served fruit, cake and coffee.

Everybody who wants a Wildcat, please stand up.  
Everybody who wants a Skylark, please stand up.  
Everybody who wants a Riviera, please stand up.

Now that everybody's standing, let's all go to the Buick Sports Car Rally.

Really.

It would be a shame to waste this chance to drive one of Buick's lively sport models, wouldn't it? Especially considering your Buick dealer's so close, and the price is so nice. That's what the Sports Car Rally is all about. And they're all so luxurious enough to make you wonder why anybody'd settle for a two-seater. A finely tuned production 340 hp Wildcat with a skilled driver scored the highest miles per gallon in the economy test of Chevrolets—high performance V-8's—at the Pure Oil Performance Trials at Daytona Beach, Florida. (So who's surprised? Not Wildcat owners.)

Miss Wynette Sheffield, an employee of the Bank of Pahokee demonstrates the use of the drive-in facilities at the Bank. A deposit and/or check to be cashed in handled through the sliding compartment operated from the inside by E. F. McIlwain.

"Judging from the use made of it, we should have had the facility long before this," says President Rupert Mock of the Bank of Pahokee. "We are more than pleased with the acceptance of this facility by the public."

Kennith Hyslop, fireman, USN, son of Mr. and Mrs. Fred Hyslop of Belle Glade, Fla., recently returned to Norfolk, Va., aboard the fleet oiler USS Nantahala after a tour with the Sixth Fleet in the Mediterranean.

While deployed, Nantahala provided units of the Sixth Fleet with fuel. Her ability to refuel ships while underway increases the mobility of the fleet.

Her crew members visited ports in France, Italy, Lebanon, and Greece.

Army Specialist Four Millare C. Spires, son of Mr. and Mrs. Perl C. Spires, 116 W. Del-Monte Ave., Clewiston, Fla., and guest members of the 1 Corps took part in Exercise SNOW STORM in Korea.

The week-long training maneuver, which ended Jan. 18, was designed to test the corps' ability to operate in Korea under conditions and to measure the effect of extreme cold on men and equipment.

The 26-year-old soldier, a postal clerk in the corps' 10th Army Postal Unit, entered the Army in August 1961.

He is a 1961 graduate of Clewiston High School.
